LABOR OFFICES IN THE UNITED STATES AND CANADA

U.S. DEPARTMENT OF LABOR
Employment Standards Administration
Division of State Employment Standards

Bulletin 177 (Rev.) June 1972

PREFACE

THIS DIRECTORY lists Federal, State, and Provincial offices and agencies in the United States and Canada which have administrative responsibility for the performances of labor or labor-related functions. In the preparation of the directory, the term "labor office" has been used in its broadest sense. Included are primary labor agencies such as departments or bureaus of labor, as well as other separate commissions, boards, or agencies with functional responsibility for such programs as workmen's compensation; employment and manpower service and unemployment compensation; regulation of private employment agencies; employment discrimination and civil rights; mediation and arbitration; industrial relations; public employment relations; and mine safety. The primary labor agency in each State frequently exercises major responsibility for labor functions. But the full scope of its program and the statutes it administers cannot necessarily be determined from the agency listing, except insofar as administrative duties are reflected in the title of each subordinate unit. Parenthetical explanations have been added wherever an agency name is not self-descriptive of its labor function.

All entries were submitted to the appropriate authority for verification in March and April 1972. The Division of State Employment Standards will be glad to be informed of any changes or additions for incorporation in subsequent revisions.

This directory was prepared by Thelma B. Smith under the supervision of Sylvia Weissbrodt, Chief, Division of State Employment Standards, Employment Standards Administration.
